

CORVETTE 2016

CORVETTE STINGRAY COUPE. Shown in Blade Silver Metallic with available Z51 Performance Package.

FROM DETROIT TO MARANELLO TO ZUFFENHAUSEN, THE WORLD IS OUR PLAYGROUND.

CORVETTE STINGRAY COUPE. Shown in Blade Silver Metallic with available Z51 Performance Package.

CORVETTE STINGRAY CONVERTIBLE. Shown in Black with available 751 Performance Package.

CORVETTE Z06 CONVERTIBLE. Shown in Arctic White with available Painted Carbon Fiber Ground Effects Package and other available features.

CORVETTE Z06 COUPE. Shown in Blade Silver Metallic with available Z07 Performance Package and other available features.

CORVETTE Z06 COUPE WITH AVAILABLE C7.R SPECIAL EDITION. Shown in Corvette Racing Yellow Tintcoat (extra-cost color). Limited to 500 cars, this package pays tribute to the C7.R race car.

CORVETTE C7.R WINS TRIPLE HONORS. The Corvette Racing team stood atop the podium at the 24 Hours of Le Mans for the eighth time in 2015. With drivers Oliver Gavin, Tommy Milner and Jordan Taylor, the No. 64 Corvette won top honors in the GTE Pro category. The 2015 season also included class wins for the Corvette Racing team in the Rolex 24 At Daytona and the Mobil 1 Twelve Hours of Sebring.

D E S I G N P A C K A G E S

BLACK SUEDE

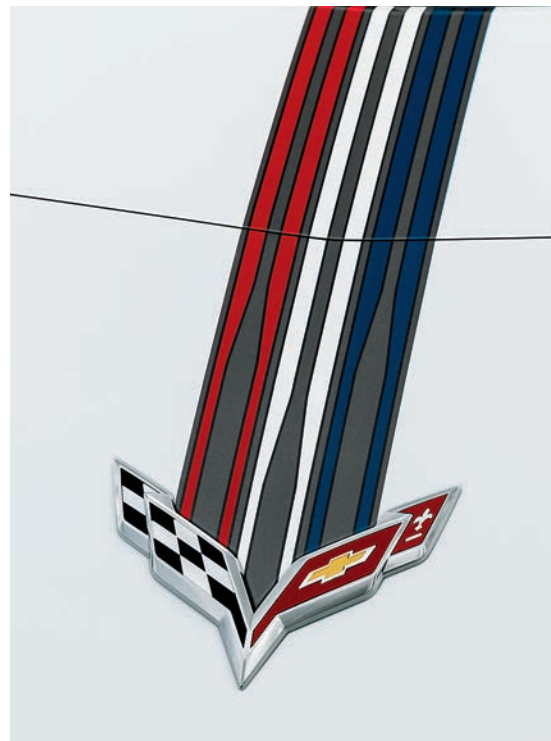

More than merely artistic triumph, this is the ominously elegant Corvette. Exterior color choices include Black, Blade Silver Metallic, Arctic White and Torch Red.

A Jet Black sueded microfiber interior – with sueded microfiber-wrapped steering wheel and shifter – adds drama. Other designer touches include Satin Black wheels with Red-painted accent stripes, Red brake calipers, Carbon Flash exterior badges, and Satin Black hood extractor and graphics. Available on Stingray and Z06 models.

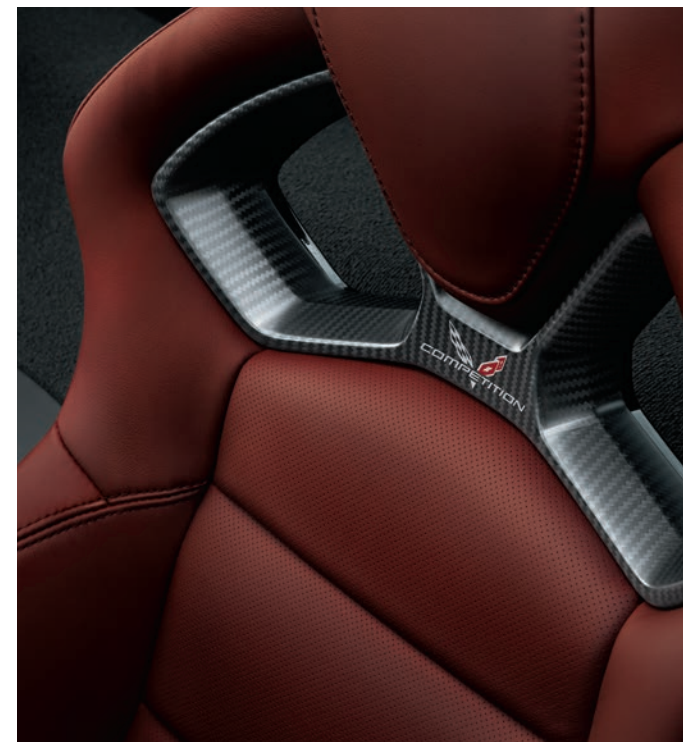

TWILIGHT BLUE

Boldly customize your Stingray or Z06 with the available Twilight Blue Design Package. Exterior color choices include Shark Gray Metallic, Blade Silver Metallic, Arctic White and Night Race Blue Metallic accented with Shark Gray vents. The convertible is further set off by a Blue top and Shark Gray tonneau cover inserts. This exclusive package also includes a Twilight Blue full-color interior plus Motorsports-style wheels on Stingray and 10-spoke Pearl Nickel blade wheels on Z06. You can also opt for a Red, White and Blue Full-Length Racing Decal Package.

SPICE RED

As provocative as it is premium, the Spice Red Design Package is offered in new Long Beach Red Metallic Tintcoat (extra-cost color), Shark Gray Metallic, Blade Silver Metallic and Arctic White. The convertible features a Spice Red top. All models include a Spice Red full-color interior plus Motorsports-style wheels on Stingray and 10-spoke Pearl Nickel blade wheels on Z06.

S T I N G R A Y

It's been called "stunning," even "astonishing." *Car and Driver* named it as one of its 10Best cars for 2015. The acclaimed Corvette Stingray takes on all challengers with the prowess and aesthetic impact you expect from the world's most desired sports car.

PRECISION-FOCUSED FORM. Provocative design meets race-proven technology, making Stingray coupe low, light and lean. Impressive downforce keeps the vehicle planted, while functional exterior vents help reduce lift and minimize drag.

ENGINEERING MASTERPIECE. With 460 horsepower¹ and 465 lb.-ft. of torque, the Stingray LT1 V8 offers 0-to-60 times of 3.7 seconds with the available Z51 Performance Package and available 8-speed paddle-shift automatic transmission. Compact engine design lowers the hoodline and vehicle center of gravity.

PADDLE-SHIFT AUTOMATIC. The available 8-speed paddle-shift automatic transmission offers smooth control with quick, precise shifts that rival its dual-clutch competitors. You can override the automatic with the paddles and take over with full manual control.

MAGNETIC SELECTIVE RIDE CONTROL.[™] For 2016, this sophisticated suspension option is available on all models. The advanced third-generation technology stiffens the suspension for high-performance driving without sacrificing a smooth ride. It includes larger wheels and a spoiler when ordered without the Z51 Performance Package.

¹ With available performance exhaust.

PERFORMANCE

THREE-PART POWER. A trio of innovative technologies rarely seen in any elite sports car – Direct Injection, Variable Valve Timing and Active Fuel Management™ – combine revolutionary power with fuel efficiency.¹

DIRECT INJECTION. This technology moves the point where fuel feeds into the engine closer to the point where it ignites, enabling greater combustion efficiency. Direct Injection provides a more complete burn of the fuel in the fuel-air mixture, so less fuel is required to deliver the equivalent horsepower of a conventional port injection fuel system.

VARIABLE VALVE TIMING. This advanced technology optimizes camshaft timing to improve high-rpm horsepower and low-end torque. An intelligent position sensor detects engine operating conditions and adjusts the timing of intake and exhaust valves.

ACTIVE FUEL MANAGEMENT (AFM). AFM temporarily deactivates four cylinders and seamlessly reactivates them when the driver demands full power. When cylinders are deactivated, real-world fuel economy improvement is realized. The transition is virtually imperceptible.

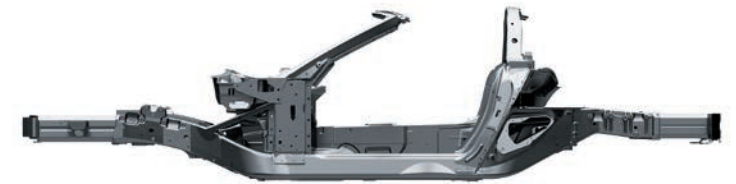

7-SPEED MANUAL TRANSMISSION WITH ACTIVE REV MATCHING. The Active Rev Matching technology provides a signal from the transmission to the engine controller. With this information, the engine rpm is controlled to better match the next gear selection, which enhances drivability.

OIL-SPRAY PISTON COOLING. In this high-performance application, eight oil-spraying jets in the engine block drench the underside of each piston and the surrounding cylinder walls with an extra layer of cooling, friction-reducing oil. The oil spray reduces piston temperature, promoting long-term durability.

PERFORMANCE EXHAUST. Available on Stingray, the performance exhaust system increases horsepower from 455 to 460. The system provides a more aggressive exhaust note and features polished stainless steel tips.

PERFECTLY BALANCED PERFORMER.

ALUMINUM AND CARBON FIBER contribute to a near 50/50 weight distribution and an enhanced power-to-weight ratio for optimal handling and acceleration. One-third the weight of steel, the latest-generation Corvette aluminum space frame is 100 pounds (45 kilograms) lighter and 57% more rigid than its steel predecessor.

¹ EPA-estimated MPG city/highway 17/29 manual, 16/29 automatic.

Z51 PERFORMANCE PACKAGE is the track-tuned Stingray option with the following technologies:

DRY-SUMP OIL SYSTEM

PERFORMANCE GEAR RATIOS

ELECTRONIC LIMITED-SLIP DIFFERENTIAL (E-LSD)

LARGER FRONT BRAKES (13.6-INCH VS. 12.6-INCH)
WITH BLACK CALIPERS

SLOTTED BRAKE ROTORS

SPECIFIC SHOCKS, SPRINGS AND
STABILIZER BARS

PERFORMANCE EXHAUST

DIFFERENTIAL AND TRANSMISSION COOLING

HEAVY-DUTY ENGINE COOLING

AERO PACKAGE WITH FRONT AIR DAM AND
REAR SPOILER

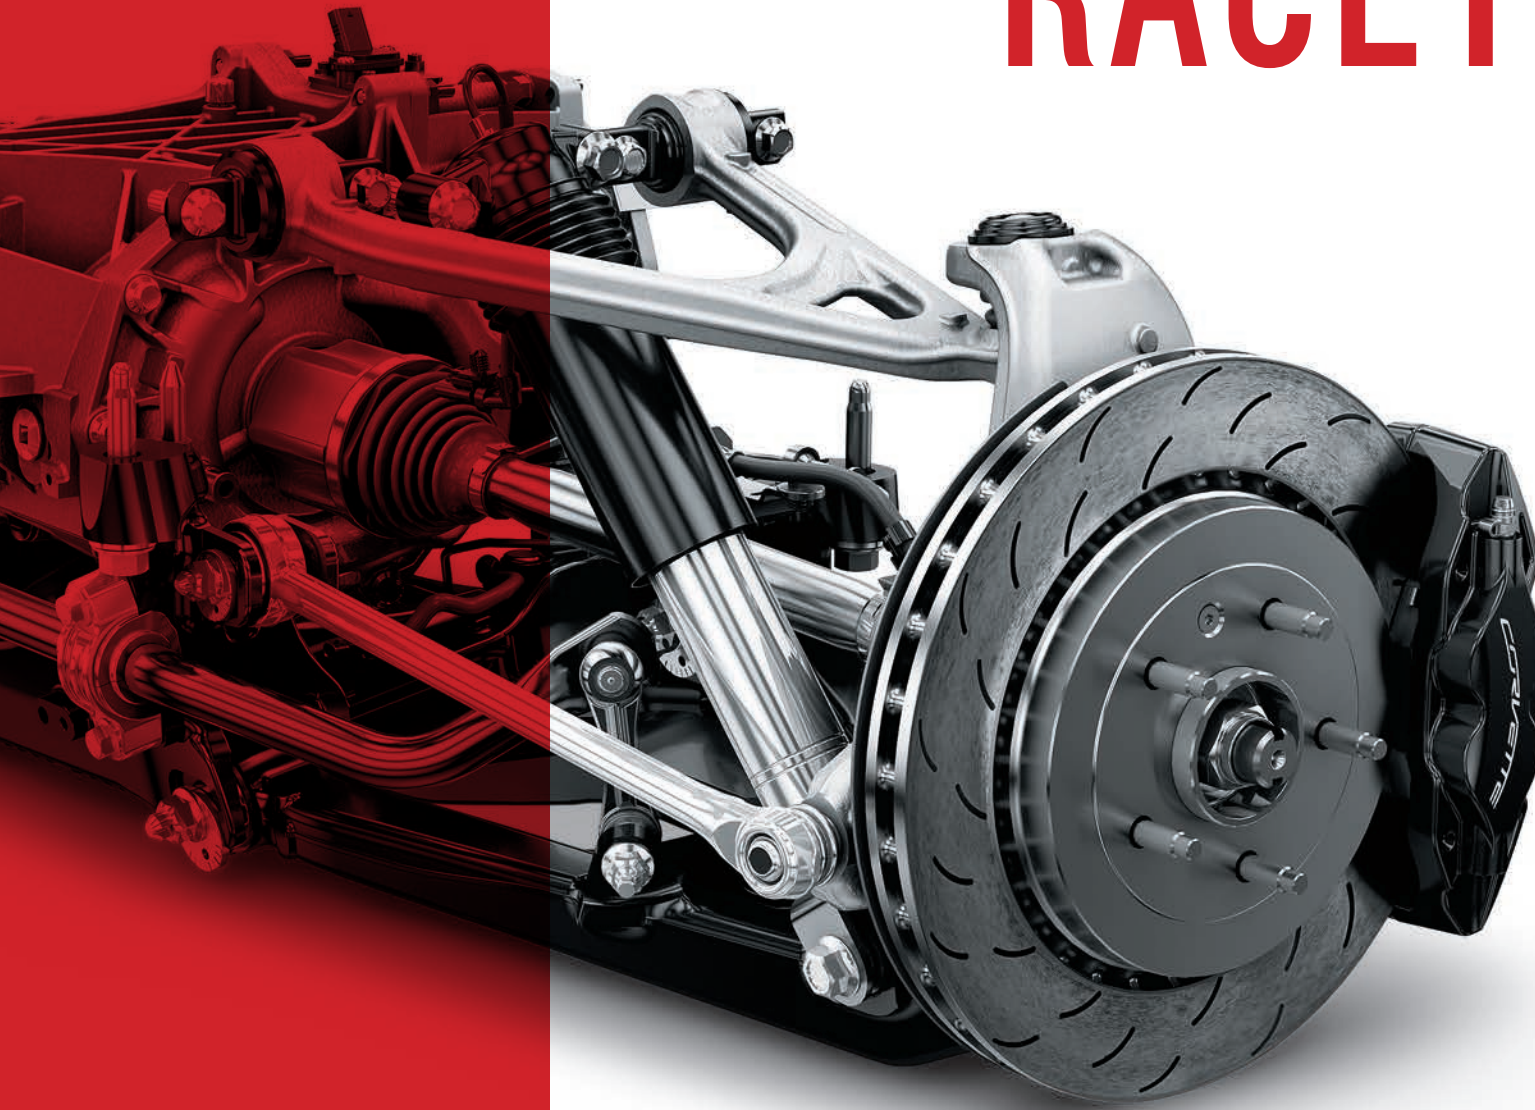

SPLIT 5-SPOKE ALUMINUM WHEELS
(19-INCH FRONT AND 20-INCH REAR)

SPECIFIC MICHELIN® PILOT® SUPER
SPORT ZP SUMMER-ONLY TIRES¹

¹ Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, go to gmaccessorieszone.com or see your dealer.

OWN THE RACETRACK.

ELECTRONIC LIMITED-SLIP DIFFERENTIAL.

Included in the available Z51 Performance Package, the intelligent Electronic Limited-Slip Differential continuously modulates torque split to improve traction and acceleration out of corners, enhancing stability on the highway and steering turn-in responsiveness.

PERFORMANCE TRACTION MANAGEMENT.

With this system, five separate settings of torque reduction and brake intervention facilitate maximum grip on the road for more confident driving. Requires available Z51 Performance Package and Magnetic Selective Ride Control.

RACETRACK-PROVEN BREMBO BRAKES.

Ventilated 4-piston Brembo® brakes are standard on all Stingray models. The available Z51 Performance Package includes larger 13.6-inch front rotors with slotted discs and 13.3-inch rears.

Call it a close link. Z06, codeveloped with the Corvette C7.R race car, is the fastest, most powerful production Corvette ever. With the available Z07 Performance Package and 8-speed paddle-shift automatic transmission, Z06 will sprint to 60 mph in 2.95 seconds and run the quarter-mile in 10.95 seconds.

SHARED ALUMINUM FRAME. The ultra-high-strength, lightweight aluminum frame used on Stingray and Z06 formed the basis for the Corvette C7.R race car frame – only minor modifications were made, including the addition of the mandated roll cage.

TENACIOUS GRIP. Z06 is further differentiated from the Stingray with flared fenders that accommodate larger, wider wheels and tires for more grip, enabling Z06 equipped with the available Z07 Performance Package to achieve 1.2 g. Larger vents enhance airflow to the engine, brakes, transmission and differential for increased track capability.

SUPERIOR AERO. The aerodynamic packages generate incredible downforce for cornering grip and stability. Compared with the Stingray, rear fenders are widened by 80 mm and the front by 56 mm, creating a more aggressive stance and enhanced handling. Plus, Z06 comes standard with larger Michelin® Pilot® Super Sport ZP summer-only tires!

¹ Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, go to gmaccessorieszone.com or see your dealer.

“... a performance pedigree unmatched in the modern automotive world.”

*“The clear message this car
sends to the rest of the world:
Bring it on.”*

— Motor Trend

¹ Driving on wet roads, in heavy rain, or through standing water with competition-oriented tires may cause hydroplaning and loss of control. Use extreme caution and drive slowly on wet roads. Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, go to gmaccessorieszone.com or see your dealer.

SUPER-TUNED SUPERCAR.

650 HP. Z06 is powered by the LT4 6.2L supercharged aluminum V8 delivering 650 horsepower and 650 lb.-ft. of torque. It incorporates an efficient next-generation supercharger, as well as a dry-sump oil system and titanium intake valves for reduced mass.

HIGH-PERFORMANCE EFFICIENCY.

While advanced engine technologies enable supercar performance, Corvette engineers have managed to increase LT4 fuel efficiency¹ by leveraging the same trio of advanced technologies introduced on the Corvette Stingray powertrain: Direct Injection, Active Fuel Management and Variable Valve Timing. Z06 is available with either a 7-speed manual transmission with Active Rev Matching or an 8-speed paddle-shift automatic.

¹ EPA-estimated MPG city/highway 15/23 manual, 13/23 automatic.

CORVETTE STINGRAY COUPE. Shown in Laguna Blue Metallic Tintcoat (extra-cost color) with available Z51 Performance Package.

THIS CORVETTE READS ROAD AND TRACK.

With the turn of a dial, everything changes. The available Driver Mode Selector allows you to easily customize your driving experience. By selecting one of five distinct driver modes – Weather, Eco, Tour, Sport and Track – your Stingray or Z06 controls the complexity of up to 12 performance variables.

WEATHER MODE. In inclement weather, the vehicle senses and adapts to road conditions, distributing appropriate power to the rear wheels. Tailored Traction Control and throttle progression promote more confident driving in rain or snow.

ECO MODE. To reduce engine workload and conserve fuel,¹ Eco Mode maximizes Active Fuel Management to limit power when traveling at cruising speeds. Fuel economy is automatically optimized until aggressive acceleration is called for.

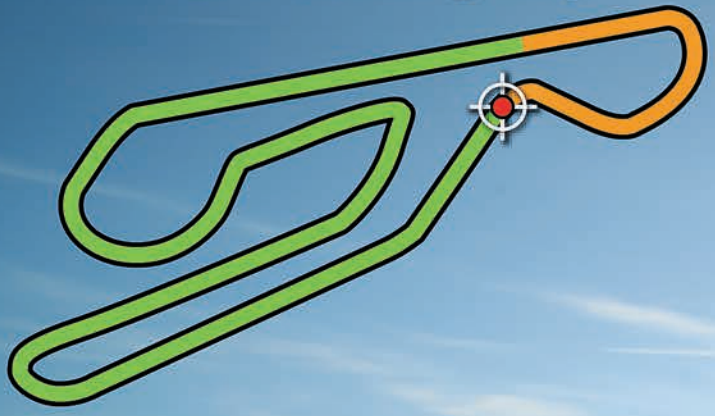

TOUR MODE. Tour Mode is the default setting for everyday driving that enhances comfort. The customizable gauge cluster can display audio, navigation and phone data.

SPORT MODE. Optimized for spirited driving, steering effort and Magnetic Selective Ride Control damping are stiffened but tempered. The exhaust note becomes more aggressive.

TRACK MODE. Designed for legitimate race settings, Track Mode enables launch control to provide maximum off-the-line acceleration. Steering effort and Magnetic Selective Ride Control damping adjust to supply maximum responsiveness. Performance Traction Management² is enabled. Throttle progression optimizes for track performance. Gauge configuration offers a GTLM (GT Le Mans) Corvette Racing-inspired display complete with shift lights and lap timer. The lap timer is linked to the available Performance Data Recorder, if equipped.

¹ EPA-estimated MPG city/highway 17/29 manual, 16/29 automatic. ² Requires available Magnetic Selective Ride Control.

GPS Tracking Map

1000

Steering Angle

CAPTURE THE EXCITEMENT. Record, share and analyze your driving experiences on and off the track with the available award-winning Performance Data Recorder (PDR). Add an extra dimension to the Corvette experience by logging video of your drives, along with real-time performance data, onto an SD memory card stored in the glove box. Four modes allow you to capture video, audio (except in Valet Mode), driving stats, date and time, and much more. Previously available only to race engineers, this tool makes you a better driver and helps you get the most out of your Corvette.

FOUR SELECTABLE OVERLAY MODES.

Track Mode overlays the maximum level of data onto your drive video, including speed, rpm, throttle and braking, g force, location-based track map, lap times and more. Sport Mode shows fewer details, but includes key data such as speed and g force. Performance Mode records 0-to-60 mph acceleration, quarter-mile speed and elapsed time, as well as 0-to-100-to-0 mph runs. For everyday driving and scenic road trips, Touring Mode has no data overlay.

TOOLBOX. You can analyze your driving technique using Cosworth Toolbox software that can be downloaded from the Corvette website. Developed by the same motorsports engineering company that supplies the Corvette Racing data acquisition and telemetry system, the Cosworth Toolbox software lets you comb through performance and lap metrics with a race-derived program that acts as a virtual driving coach. You can even pull in a hot lap from another driver – one of your buddies or even a pro – and analyze it side by side with yours.

ANALYZE YOUR DRIVE. Data is captured using a seamlessly integrated, windshield-mounted HD camera module, as well as a performance processor, internal accelerometers and a GPS system. Play your video back on a computer or tablet, or relive your drive right inside your Corvette (when stopped, of course) on the 8-inch diagonal touch-screen.

VALET MODE. Keep tabs on your Corvette when you're not the driver by setting the PDR to Valet Mode, which can record outside forward video and data.

CRAFTSMANSHIP IS NOT A LOST ART.

HAND-STRETCHED LEATHER. Napa leather, available on the 3LT trim level, is a testament to the finely crafted Corvette interior. Free from imperfections, its natural grain dismisses the notion of synthetic textures. A hand-stretched, leather-wrapped instrument panel swathed and sewn to meticulous fit and finish is included on 3LT and 3LZ, and lightweight aluminum accents adorn doors, pedals, shifter and cockpit instrumentation.

PADDLE-SHIFT CONTROL. Paddles initiate Active Rev Matching on the 7-speed manual transmission or manual shifting on the available 8-speed paddle-shift automatic.

EXACT COMFORT. The passenger air vent includes an interior temperature control and indicator, plus controls for the available heated and ventilated seats. In every detail, this interior is designed for total comfort.

TAILORED TO YOU. Now included on all Corvette models, the flat-bottom steering wheel provides more knee room for entry/egress and heel/toe shifting. This leather-wrapped power tilt and telescopic wheel also includes controls for Bluetooth® wireless technology,¹ cruise control, audio system and Driver Information Center.

¹ Go to my.chevrolet.com/learn to find out which phones are compatible with the vehicle.

PERFORMANCE, PRECISELY MEASURED.

RIGHT: An available color Head-Up Display projects critical data into the driver's line of sight. LOWER LEFT: The customizable gauge cluster is optimized for each driver mode. LOWER RIGHT: The retractable, tablet-inspired color touch-screen provides information at a glance.

THE CONNECTED CORVETTE. Seamlessly connect your smart devices and Corvette to the Internet. After initial setup, whenever your Corvette is on, available 4G LTE Wi-Fi¹ is automatically on too. It offers great signal quality and bandwidth for up to seven devices. OnStar with 4G LTE provides a better in-vehicle experience than you'll get with your smartphone. Our stronger signal means you have a reliable connection!

CHEVROLET MYLINK² Using steering wheel-mounted controls, hand gesture recognition and voice recognition capabilities, you can take calls and receive text messages hands-free. Or access a broad range of functions including OnStar³ and available SiriusXM Satellite Radio⁴. Plus, stream music services like Pandora[®] Internet Radio⁵. Other features include available 3-D navigation maps, an auxiliary input jack and Bluetooth[®] wireless technology⁶.

EASY ACCESS TO YOUR APPS. With Apple CarPlay⁷ compatibility, you can interact with select iPhone[®] apps. This system takes some of the iPhone features you'd want to access and puts them on your vehicle's display in a smart, simple manner. You'll have access to Phone, Music, Maps and Messages, as well as some of your favorite audio apps (e.g., iHeartRadio⁵, Spotify⁸).

¹ Requires a compatible mobile device, active OnStar service and data plan. 4G LTE service available in select markets. Visit onstar.com for coverage map, details and system limitations. ² Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. ³ Visit onstar.com for coverage map, details and system limitations. Services vary by model and conditions. ⁴ SiriusXM subscription is free for three months with 1LT model and free for one year with 2LT and 3LT models. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change. ⁵ Data plan rates apply. ⁶ Go to my.chevrolet.com/learn to find out which phones are compatible with the vehicle. ⁷ Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible smartphone and data plan rates apply.

CORVETTE STINGRAY 3LT. Shown in Kalahari with available Competition Sport seats with sueded microfiber seat inserts.

IT'S A PREMIUM CAR, FROM THE INSIDE OUT.

COMPETITION SPORT SEATS. The available Competition Sport seats, shown at right in Adrenaline Red, are designed for the racetrack and the street. These seats provide maximum support for cornering, with more pronounced side bolsters. Premium materials include available aluminum, carbon fiber and sueded microfiber.

CORVETTE Z06 CONVERTIBLE 3LZ. Shown in Blade Silver Metallic with available Z07 Performance Package.

ACCESSORIES

Embroidered Console Armrest with Stingray logo.

Interior Trim Badge with Jake logo.

Z06 Blade Accessory Wheels.

Stingray Interior Door Sill Plates.

CORVETTE UNMATCHED. These are just a few of the impressive features available for your 2016 Corvette. For a complete list of features and accessories, check out chevrolet.com.

C7.R Vehicle Dust Cover (included with C7.R Special Edition).

MAXIMIZING THE CORVETTE EXPERIENCE.

BUILD YOUR OWN ENGINE. The available Engine Build Experience allows Z06 customers to assemble the 650-horsepower supercharged engine that will power their new Corvette Z06. The experience includes a full day with a Performance Build Center engine assembly technician who instructs and oversees the build. See your dealer for complete details.

YOUR CORVETTE CREATED. Watch your Stingray or Z06 as it is assembled through a special private tour at the Corvette plant organized by the National Corvette Museum (corvettemuseum.com).

ENJOY A SPECIAL DELIVERY. You can also opt for Museum Delivery, which personalizes the buying experience further with a delivery program at the National Corvette Museum, located across the street from the Bowling Green, Kentucky, assembly plant.

PERSONALIZED INTERIOR PLAQUE. Make your 2016 Corvette one-of-a-kind with the available Personalized Interior Plaque. The plaque features your name, as well as your Vehicle Identification Number and the Corvette crossed-flags logo.

GO TO DRIVING SCHOOL. Get the most from your new Corvette through the Ron Fellows Performance Driving School. This two-day program is available to 2016 Corvette owners at a reduced rate. Developed and managed by legendary Corvette racer Ron Fellows, the performance driving curriculum at Spring Mountain Motor Resort and Country Club in Pahrump, Nevada, accommodates drivers of all skill levels.

Through the Ron Fellows Performance Driving School, you'll be able to make the most of Corvette technologies such as the Driver Mode Selector and Active Rev Matching and delve deeper into the vehicle's capabilities, resulting in a more fulfilling driving experience. Owners do not have to bring their own Corvette to the school; the school has its own fleet of Corvette Stingray and Z06 models.

Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, go to gmaccessorieszone.com or see your dealer.

STANDARD AND INCREMENTAL EQUIPMENT

CORVETTE STINGRAY 1LT

6.2L LT1 V8 engine with Direct Injection, Variable Valve Timing and Active Fuel Management
7-speed manual transmission with Active Rev Matching and launch control
Active Handling System with all-speed Traction Control
4-wheel ventilated disc brakes with ABS and Panic Brake Assist
Speed-sensitive Electric Power Steering (EPS) with variable ratio
4-wheel independent suspension
Aluminum frame structure
Carbon-fiber hood with rear opening for engine access
Capless fueling
Oil-Life Monitor and engine oil cooler
Tire Pressure Monitoring System and run-flat summer-only performance tires ¹
Silver-painted aluminum wheels (18" x 8.5" front and 19" x 10" rear)
Aluminized stainless steel exhaust with 3" polished stainless steel tips
Dark Gray Metallic-painted brake calipers
Carbon-fiber removable roof panel, painted body-color (coupe)
Keyless Access with Push-Button Start
Xenon high-intensity discharge headlamps and upper LED daytime running lamps
Frontal and side-impact air bags ² for driver and passenger with Passenger Sensing System
OnStar Guidance Plan ³ (standard for the first six months, trial excludes Hands-Free Calling minutes), includes Automatic Crash Response and Turn-by-Turn Navigation
OnStar Basic Plan ⁴ for five years includes limited features of the OnStar RemoteLink [®] mobile app ⁵ including remote start, door lock or unlock, honk your horn and flash your lights, and send destinations to your Chevrolet MyLink [®] navigation screen (if equipped). Limited OnStar services include Advanced Diagnostics and Dealer Maintenance Notification
Bluetooth [®] wireless technology and audio streaming ⁷ for select phones
Electronic cruise control with Set and Resume Speed
Driver Mode Selector with 5 modes
Outside heated power-adjustable body-color mirrors
Power-programmable door locks with lockout protection
Power windows with express-up/-down feature
Rear vision camera

CORVETTE STINGRAY 1LT (CONTINUED)

Push-button hatch release
Dual-zone automatic climate control with individual settings for driver and passenger, dedicated passenger controls, and outside temperature display
Air filtration system with pollen filter
Driver Information Center with reconfigurable 8-inch diagonal color display; includes trip/fuel information, vehicle information, vehicle settings and driver mode settings for Tour, Sport and Track modes
Power tilt and telescopic steering column
3-spoke leather-wrapped flat-bottom steering wheel with mounted controls for audio, cruise and Driver Information Center
Lighting: Courtesy, cargo and glove box
Leather-wrapped shift knob
Full power top with remote activation, includes glass rear window with integral defroster (convertible)
Storage: Electric locking glove box, motorized hidden storage behind 8-inch diagonal touch-screen (includes USB port ⁸), center console and rear compartment with cover
GT bucket seats with Mulan leather seating surfaces and 8-way power adjusters
Floor console with two covered cup holders, two auxiliary power outlets, two USB ports ⁹ ; SD card reader, auxiliary input jack and storage
Premium carpeted floor mats
Illuminated visor vanity mirrors for driver and passenger
Console-mounted passenger assist handle
Chevrolet MyLink [®] Radio with 8-inch diagonal high-resolution color touch-screen display with motorized power up/down and hidden storage with USB ports ⁸ ; smartphone integration, Bluetooth audio streaming ⁷ ; Siri Eyes Free ⁹ ; Apple CarPlay ¹⁰ compatibility, Text Message Alerts ¹¹ ; Gracenote [®] database and natural language voice recognition
9-speaker Bose [®] sound system
SiriusXM Satellite Radio ¹² with three trial months of the SiriusXM All Access Package featuring over 150 channels of satellite radio, including premium programming and access to over 150 channels of SiriusXM Internet radio on a computer, smartphone or tablet; SiriusXM NavTraffic ¹² and Travel Link ¹² are included with a three-month trial when the available Chevrolet MyLink [®] Radio with Navigation is selected
OnStar with 4G LTE and built-in Wi-Fi hotspot for up to seven devices ¹³ includes data trial for 3 months or 3 GB (whichever comes first)

CORVETTE STINGRAY 2LT In addition to or replacing 1LT features, 2LT includes:

Front curb view parking cameras
Color-keyed console and door armrests
Driver-side auto-dimming rearview mirror and inside auto-dimming frameless rearview mirror
Color Head-Up Display with readouts for 4 modes, including Track mode with g-meter, vehicle speed and engine rpm
Advanced theft-deterrent system
Universal Home Remote with 3-channel programmable transmitter for garage door opener, located on driver visor
10-speaker Bose [®] Centerpoint [®] Surround sound system

Sueded Microfiber-Wrapped Upper Interior Trim Package includes sueded microfiber headliner, visors, trim above windshield and rear window, A-pillar trim, and area around quarter windows (coupe); sueded microfiber visors, trim above windshield and rear-window cover and A-pillar trim (convertible)

¹ Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, go to gmaccessorieszone.com or see your dealer. ² Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and the child safety seat instructions for more safety information. ³ Visit onstar.com for coverage map, details and system limitations. OnStar acts as a link to existing emergency service providers. ⁴ Does not include emergency or security services. Visit onstar.com for coverage map, details and system limitations. ⁵ Requires compatible mobile device and active OnStar subscription. Visit onstar.com for details and system limitations. ⁶ Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. Map coverage available in the United States, Puerto Rico and Canada. ⁷ Go to mychevrolet.com/learn to find out which phones are compatible with the vehicle. ⁸ Not compatible with all devices. ⁹ Requires available Chevrolet MyLink and compatible iPhone running iOS 6 or later. ¹⁰ Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible smartphone and data plan rates apply. ¹¹ Requires a compatible smartphone with Bluetooth profile (M.A.P.) and applicable text messaging features. Visit mychevrolet.com/learn for vehicle and smartphone eligibility. ¹² If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change. For more information about Travel Link and NavTraffic, visit siriusxm.com/infotainment. ¹³ Requires a compatible mobile device, active OnStar service and data plan. 4G LTE service available in select markets. Visit onstar.com for coverage map, details and system limitations.

STANDARD AND INCREMENTAL EQUIPMENT (CONTINUED)

CORVETTE Z06 1LZ

WARRANTY

5-YEAR/60,000-MILE TRANSFERABLE POWERTRAIN LIMITED WARRANTY Every 2016 Chevrolet passenger car, light-duty truck, SUV and crossover comes with a 5-year/60,000-mile (whichever comes first) transferable Powertrain Limited Warranty. Plus, you get 5 years/60,000 miles (whichever comes first) of the 24/7 Roadside Assistance Program, the Courtesy Transportation Program, and much more. See dealer for details.

NEW VEHICLE LIMITED WARRANTY GM vehicles registered in the USA are covered for 3 years/36,000 miles (whichever comes first). The complete vehicle is covered, including tires, towing to your nearest Chevrolet dealership and cosmetic corrosion resulting from defects. Repairs will be made to correct any vehicle defect, and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 6 years/100,000 miles (whichever comes first). See dealer for details.

¹ Maintenance visits must occur within two years or 24,000 miles of vehicle delivery, whichever comes first. Does not include air filters. See participating dealer for other restrictions and complete details. ² Whichever comes first. See dealer for details. ³ Does not include emergency or security services. Visit onstar.com for coverage map, details and system limitations. ⁴ Requires compatible mobile device and active OnStar subscription. Visit onstar.com for details and system limitations. ⁵ Visit onstar.com for coverage map, details and system limitations.

IMPORTANT INFORMATION

CHEVROLET OWNER CENTER (MY.CHEVROLET.COM) Everything you need to know. Anything you need to do. Your Chevrolet Owner Center makes it easy. Create your account today to get the most out of your new vehicle. Get special alerts and offers, schedule service, review your maintenance schedule, and view how-to videos specifically for your vehicle. All online, anytime. Visit the Owner Center today to register or take a tour.

ENGINES Chevrolet products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

ASSEMBLY Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

ONSTAR OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1.888.4ONSTAR (1-888-466-7827) or visit onstar.com for OnStar Terms and Conditions, Privacy Policy, details and system limitations.

A NOTE ON CHILD SAFETY Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information.

IMPORTANT WORDS ABOUT THIS CATALOG We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based on design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with

your Chevrolet dealer for complete details. Chevrolet reserves the right to lengthen or shorten the model year for any product for any reason or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on GM Luxury Sports Car segment and latest available competitive information. Excludes other GM vehicles.

TIRES Corvette is equipped with run-flat Michelin® ZP summer-only tires¹ that eliminate the need for a spare. The tire design enables safe function during and after loss of pressure for some distance at a moderate speed. The shorter the distance that you drive with loss of pressure, the better the chance that the tire can be repaired. As soon as possible, contact Roadside Assistance for the nearest authorized GM or run-flat tire servicing facility and have the tire inspected. See your Owner's Manual. Corvette tires tend to wear faster and are more susceptible to damage from road hazards or curb impact than standard profile tires. This type of damage is not covered by the GM New Vehicle Limited Warranty.

CHEVROLET OWNERSHIP EXPERIENCE Chevrolet is committed to enhancing the vehicle shopping and ownership experience through a wide array of programs. Visit chevrolet.com to build and price, find a vehicle, request a quote, compare vehicles, find financial tools or track your vehicle order. You'll also find information about 24-hour Roadside Assistance, Courtesy Transportation, Customer Assistance, GM Mobility, safety and current incentives.

CHEVROLET.COM/SAFETY Chevrolet is committed to keeping you and your family safe – from the start of your journey to your destination. That's why every Chevrolet is designed with a comprehensive list of safety and security features to help give you peace of mind.

GMMOBILITY.COM (1-800-323-9935) GM MobilitySM offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.
