ENGINES Chevrolet products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

ASSEMBLY Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

ONSTAR OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1.888.4ONSTAR (1-888-466-7827) or visit onstar.com for OnStar Terms and Conditions, Privacy Policy, details and system limitations.

A NOTE ON CHILD SAFETY Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner's Manual and the child safety seat instructions for more safety information.

IMPORTANT WORDS ABOUT THIS CATALOG We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based on design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for

complete details. Chevrolet reserves the right to lengthen or shorten the model year for any product for any reason or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on GM Luxury Sports Car segment and latest available competitive information. Excludes other GM vehicles.

TIRES Corvette is equipped with run-flat Michelin® ZP summer-only tires⁶ that eliminate the need for a spare. The tire design enables safe function during and after loss of pressure for some distance at a moderate speed. The shorter the distance that you drive with loss of pressure, the better the chance that the tire can be repaired. As soon as possible, contact Roadside Assistance for the nearest authorized GM or run-flat tire servicing facility and have the tire inspected. See your Owner's Manual. Corvette tires tend to wear faster and are more susceptible to damage from road hazards or curb impact than standard profile tires. This type of damage is not covered by the GM New Vehicle Limited Warranty.

FLEET ORDERS Some standard content may be deleted on fleet orders. See dealer for details.

THE EXTRAORDINARY MADE SIMPLE.

CORVETTE ENGINEERS STARTED AT THE CORE, CONSTRUCTING A FRAME USING ALUMINUM WITH CARBON-NANO-COMPOSITE UNDERBODY PANELS. THESE MATERIALS CONTRIBUTE TO A NEAR 50/50 WEIGHT BALANCE AND AN ENHANCED POWER-TO-WEIGHT RATIO.

ENGINE. All Stingray and Grand Sport models are powered by an engineering jewel, the 6.2-liter engine, a descendant of the legendary small block V8. It offers horsepower ranging from 455 in Stingray to 650 in the LT4 powering Z06.

DIRECT INJECTION. Moves fuel delivery closer to the cylinder, enabling a higher compression ratio and greater combustion efficiency. As a result, less fuel is required to deliver the equivalent horsepower of a conventional port injection fuel system.

VARIABLE VALVE TIMING. Optimizes camshaft timing to improve high-rpm horsepower and low-end torque. An intelligent position sensor adjusts the timing of intake and exhaust valves.

ACTIVE FUEL MANAGEMENT™ (AFM). AFM temporarily deactivates four cylinders for better fuel economy and seamlessly reactivates them when the driver demands full power.

OIL-SPRAY PISTON COOLING. Eight oil-spraying jets drench the underside of each piston and the surrounding cylinder walls with an extra layer of cooling, friction-reducing oil.

LAUNCH CONTROL. Standard on all models, this technology regulates ignition timing to limit wheel spin for more consistent acceleration runs.

7-SPEED MANUAL GEARBOX WITH ACTIVE REV MATCHING. This technology sends a signal from the transmission to the engine controller, allowing control of engine rpm to eliminate the need for heel/toe shifting while delivering better smoothness and balance.

AVAILABLE 8-SPEED PADDLE-SHIFT AUTOMATIC TRANSMISSION. There's nothing lost with this automatic, which offers smooth control with quick, precise shifts that rival its dual-clutch competitors. Plus, you have the advantages of an automatic when you need it.

PERFORMANCE EXHAUST. Standard on Grand Sport and Z06, this available system on Stingray increases horsepower from 455 to 460. The exhaust sound character changes with Tour, Sport and Track modes using variable valves.

ELECTRONIC LIMITED-SLIP DIFFERENTIAL. Continuously modulates torque split to improve traction and acceleration out of corners, enhancing stability and turn-in responsiveness. Included in the available Z51 Performance Package and standard on Grand Sport and Z06.

PERFORMANCE TRACTION MANAGEMENT. Five settings of torque reduction and brake intervention facilitate maximum grip. Standard on Grand Sport and Z06 and available on Stingray equipped with the Z51 Performance Package and Magnetic Selective Ride Control.

- 1 AVAILABLE MAGNETIC SELECTIVE RIDE CONTROL DAMPER
- 2 SHORT/LONG ARM ALUMINUM DOUBLE-WISHBONE SUSPENSION
- 3 AVAILABLE BREMBO® CARBON CERAMIC BRAKE ROTOR

MAGNETIC SELECTIVE RIDE CONTROL.

Standard on Grand Sport and Z06 and available on Stingray, it “reads” the road every millisecond and changes damping in just 10 to 15 milliseconds in shocks filled with a magnetorheological fluid containing minute iron particles.

FROM HOT TRACK TO WET STREETS.

WHERE ARE YOU GOING TO DRIVE TODAY? THE AVAILABLE DRIVER MODE SELECTOR LETS YOU CHOOSE ONE OF FIVE DISTINCT DRIVER MODES – TOUR, WEATHER, ECO, SPORT AND TRACK. THE SYSTEM INCREASES YOUR OPERATIONAL BANDWIDTH DRAMATICALLY, CONTROLLING UP TO 12 PERFORMANCE VARIABLES.

TOUR MODE. Tour Mode is the default setting for everyday driving that enhances comfort. The customizable gauge cluster can display audio, navigation¹ (if equipped) and phone data.

WEATHER MODE. In inclement weather, the vehicle senses and adapts to road conditions, distributing appropriate power to the rear wheels. Tailored Traction Control and throttle progression promote more confident driving in rain or snow.

ECO MODE. To reduce engine workload and conserve fuel², Eco Mode maximizes Active Fuel Management to limit power when traveling at cruising speeds. Fuel economy is automatically optimized until aggressive acceleration is called for.

SPORT MODE. Cluster configuration shows traditional Corvette tach and performance gauges. Steering effort and available Magnetic Selective Ride Control damping are stiffened but tempered. The sound from the available performance exhaust becomes more aggressive.

TRACK MODE. This mode enables launch control to provide maximum off-the-line acceleration. Steering effort and available Magnetic Selective Ride Control damping adjust to supply maximum responsiveness. Available Performance Traction Management is enabled. Throttle progression optimizes for track performance. Gauge configuration offers a GTLM (GT Le Mans) Corvette Racing-inspired display complete with shift lights and lap timer. The lap timer is linked to the available Performance Data Recorder, if equipped.

Z06. “PLEASE CLEAR THE GRID.”

APPROPRIATE WORDS WHENEVER A CORVETTE Z06 IS POSITIONED NEAR THE CORVETTE C7.R RACE CAR. Z06 IS THE FASTEST, MOST POWERFUL PRODUCTION CORVETTE EVER. WITH THE AVAILABLE Z07 PERFORMANCE PACKAGE AND 8-SPEED PADDLE-SHIFT AUTOMATIC TRANSMISSION¹; Z06 WILL SPRINT TO 60 MPH IN 2.95 SECONDS² AND RUN THE QUARTER-MILE IN 10.95 SECONDS.

650 HP. Z06 is powered by the 6.2L LT4 supercharged aluminum V8 delivering 650 horsepower and 650 lb.-ft. of torque. It uses a dry-sump oil system and titanium intake valves for reduced mass. The engine incorporates an efficient, next-generation supercharger with a modified intercooler cover and repositioned intercooler bricks in the housing for improved flow efficiency. Result: extended track performance. Available with both manual and automatic transmissions (manual transmission is recommended for extended track usage at higher ambient temperatures).

SHARED ALUMINUM FRAME. The ultra-high-strength, lightweight aluminum frame used

on the Corvette C7.R race car was developed jointly with the production Z06 frame.

GREAT GOBS OF GRIP. Compared with Stingray, the front is 56 mm wider and the rear is 80 mm wider, creating a more aggressive stance and enhancing handling. Z06 comes with Michelin® Pilot® Super Sport ZP summer-only tires.³ A Z06 equipped with the available Z07 Performance Package can achieve 1.2 g on a skid pad.

AIR IS OUR ALLY. Two available aerodynamic packages generate incredible downforce for cornering grip and stability. Larger vents enhance cooling to the engine, brakes, transmission and differential.

Z07 PERFORMANCE PACKAGE.

CORVETTE STINGRAY CONVERTIBLE 3LT. Shown in Kalahari with sueded microfiber-wrapped steering wheel and shifter as well as other available features.

The image shows the driver's side interior of a Corvette. The dashboard is dark grey with a large digital display in the center showing various icons and the time 11:27. The instrument cluster on the left has analog gauges. The center console has a gear shifter and handbrake. The passenger side has a large air vent with a digital display showing 68. The interior is finished with tan leather and dark grey accents.

PLEASE BE SEATED AND FASTEN YOUR SAFETY BELTS.

THE PRECISION STARTS HERE. Leather seating surfaces are standard on all Corvette models. Napa leather, available on the 3LT and 3LZ trim levels, is a particular testament to the finely crafted Corvette interior. A hand-stretched, leather-wrapped instrument panel swathed and sewn to meticulous fit and finish is included on 3LT and 3LZ, and lightweight aluminum accents adorn doors, pedals, shifter and cockpit instrumentation.

COMFORT YOUR PASSENGER. The passenger air vent includes an interior temperature control and indicator, plus controls for the available heated and ventilated seats. In every detail, this interior is designed for total comfort.

GRAB THE RACING-STYLE WHEEL. Included on all Corvette models, the flat-bottom steering wheel provides more knee room for entry/egress and heel/toe shifting. This leather-wrapped power tilt and telescopic steering wheel also includes controls for Bluetooth® wireless technology,¹ cruise control, the audio system and the Driver Information Center.

RECORD YOUR GREATEST MOMENTS BEHIND THE WHEEL.

PERFORMANCE DATA RECORDER.

The available Performance Data Recorder is a tool that can help make you a better driver, and it also helps you get the most out of your Corvette. Originally developed by racing engineers, this system lets you record, share and understand your driving experiences on and off the track. Add an extra dimension to the Corvette experience by logging video of your drives, along with real-time performance data, onto an SD memory card stored in the glove box. Four modes allow you to capture video, audio (except in Valet Mode), driving stats, date and time, and much more.

FOUR SELECTABLE OVERLAY MODES.

Track Mode overlays the maximum level of data onto your drive video, including speed, rpm, throttle and braking, g force, location-based track map, lap times and more. Sport Mode shows fewer details, but includes key data such as speed and g force. Performance Mode records 0-to-60 mph acceleration, quarter-mile speed and elapsed time, as well as 0-to-100-to-0 mph runs. For everyday driving and scenic road trips, Touring Mode has no data overlay.

TOOLBOX. You can analyze your driving technique using Cosworth Toolbox software that can be downloaded from the Corvette website. Developed by the same motorsports engineering company that supplies the Corvette Racing data acquisition and telemetry system, Cosworth Toolbox software lets you comb through performance and lap metrics with a race-derived program that acts as a virtual driving coach. You can even pull in a hot lap from another driver – one of your buddies or even a pro – and analyze it side by side with yours.

ANALYZE YOUR DRIVE. Data is captured using a seamlessly integrated, windshield-mounted HD camera module, as well as a performance processor, internal accelerometers and a GPS system. Play your video back on a computer or tablet, or relive your drive right inside your Corvette (when parked, of course) on the 8-inch diagonal touch-screen.

VALET MODE. Keep tabs on your Corvette when you're not the driver by setting the PDR to Valet Mode, which can record exterior forward video and data.

THE REWARDS OF A HIGHER EDUCATION.

Learn all the capabilities of your new Corvette through the Ron Fellows Performance Driving School. This two-day program is available to 2017 Corvette owners at a reduced rate. Developed and managed by legendary Corvette racer Ron Fellows, the performance

driving curriculum at Spring Mountain Motor Resort and Country Club in Pahrump, Nevada, accommodates drivers of all skill levels. Through the Ron Fellows Performance Driving School, you'll be able to make the most of Corvette technologies such as the available Driver Mode Selector and Active Rev

Matching and delve deeper into the vehicle's capabilities, resulting in a richer driving experience. Owners do not use their own Corvette on track; the school has its own fleet of Stingray, Grand Sport and Z06 models to choose from. Visit corvetteownersschool.com for more information.

WELCOME TO OUR
DESIGNER COLLECTION.

CORVETTE Z06 CONVERTIBLE. Shown in Arctic White with the available Twilight Blue Design Package and Red, White and Blue Full-Length Racing Stripe Package.

BLACK SUEDE

More than merely artistic triumph, this is the ominously elegant Black Suede Design Package. Exterior color choices include Black, Blade Silver Metallic, Arctic White and Torch Red. A Jet Black sueded microfiber interior – with sueded microfiber-wrapped steering wheel and shifter – adds drama. Other designer touches include Satin Black wheels with Red-painted accent stripes, Red brake calipers and Carbon Flash exterior badges. Available on Stingray, Grand Sport and Z06 models.

SPICE RED

As provocative as it is premium, the Spice Red Design Package is offered in Long Beach Red Metallic Tintcoat (extra-cost color), Watkins Glen Gray Metallic, Blade Silver Metallic and Arctic White. The convertible features a Spice Red top. All models include a Spice Red full-color interior plus Motorsports-style wheels on Stingray, machined-face aluminum wheels on Grand Sport and 10-spoke blade aluminum wheels in Pearl Nickel on Z06.

TWILIGHT BLUE

Boldly customize your Stingray, Grand Sport or Z06 with the available Twilight Blue Design Package. Exterior color choices include Watkins Glen Gray Metallic, Blade Silver Metallic, Arctic White, Sterling Blue Metallic and Admiral Blue. The convertible is further set off by a Blue top and Shark Gray tonneau cover inserts. This exclusive package also includes a Twilight Blue full-color interior plus Motorsports-style wheels on Stingray, machined-face aluminum wheels on Grand Sport and 10-spoke blade aluminum wheels in Pearl Nickel on Z06. Shown with available Red, White and Blue Full-Length Racing Stripe Package.

GRAND SPORT COLLECTOR EDITION.

If the return of the storied Grand Sport wasn't enough, now there's a special Grand Sport Collector Edition. Resplendent in Watkins Glen Gray Metallic with a Tension Blue interior accent, it is designed from day one to be a highly sought-after treasure. Only 1,000 of these special editions will be built, all in a unique VIN sequence. Each includes a special retro production number plaque and aluminum hash marks on the center console, a Grand Sport steering wheel badge and special embossed head restraints that feature a 1963 Grand Sport roadster.

CORVETTE GRAND SPORT COUPE. Shown in Watkins Glen Gray Metallic with available Grand Sport Collector Edition and other available features.
