

CORVETTE 2021

—

**A SPORTS  
CAR DYNASTY  
CONTINUES.**

The eighth-generation Corvette, introduced as a 2020 model, continues to impress the most seasoned automobile enthusiasts around the world.

Available in coupe or convertible, the 2021 Corvette is everything mid-engine advocate and Corvette patron saint Zora Arkus-Duntov could have imagined.

The 2021 Stingray is a Corvette for a new age and will no doubt entice future generations of Corvette enthusiasts who seek a driving experience like no other.

3LT COUPE WITH Z51 PERFORMANCE PACKAGE AND OPTIONS | TORCH RED

BENEFITS OF MID-ENGINE

—  
BEAUTY

UNDER

GLASS.

3LT COUPE WITH Z51 PERFORMANCE PACKAGE AND OPTIONS | TORCH RED

Your first impression is that beautiful engine behind the cockpit, visible on coupe models. Why is it located there? First, this puts the weight of the engine over the rear-driving wheels to enhance traction. With the engine behind the cockpit, there's more forward visibility. And with the seats positioned closer to the front wheels, the driver and passenger are at the car's center of gravity.

The result is the kind of reflexes you'd expect from a well-honed sports car. Stingray proves that life is indeed a beautiful ride.

DESIGN

---

## SWEEPING PROPORTIONS

WITH A BOLD,  
WIDE STANCE.

Mid-engine architecture dictated a different shape for the eighth-generation Corvette. Designers made a polite nod to its proud heritage. Function played a huge role, with large front intakes and sculpted side intakes that help the engine breathe and stay cool. With the cockpit moved significantly forward, the side profile reveals a short hood with a long, graceful rear deck. The rear fascia features two functional air exits flanked by twin taillamps and twin exhaust outlets on each side, leaving no doubt about what you're driving.

3LT COUPE WITH OPTIONS | CERAMIC MATRIX GRAY METALLIC

—  
**EXPERIENCE  
THE ROAD LIKE  
NEVER BEFORE.**

3LT INTERIOR WITH OPTIONS | SKY COOL GRAY/STRIKE YELLOW

The eighth-generation Corvette cockpit is well-suited to enthusiast driving. Your driving position is some 16 inches forward compared to the previous generation. The low forward cowl makes it easy to see, while a racing-style steering wheel with paddle shifters keeps the view pure and also provides extra

knee room. Your rear sight lines are equally as impressive, thanks to an available Rear Camera Mirror! Console controls include a push-button toggle switch gear selector and a leather-wrapped Driver Mode Selector. Finally, a flowing buttress is topped with easy-to-reach climate controls.

DESIGN

THE COUPE.

THE CONVERTIBLE.

3LT COUPE WITH OPTIONS | CERAMIC MATRIX GRAY METALLIC

3LT COUPE WITH Z51 PERFORMANCE PACKAGE AND OPTIONS | RAPID BLUE (EXTRA COST)

3LT CONVERTIBLE WITH Z51 PERFORMANCE PACKAGE AND OPTIONS | SILVER FLARE METALLIC

The Stingray coupe features a lightweight, easily removable roof panel that stows conveniently in the rear trunk. Choose from a standard body-color roof panel or available transparent or carbon-fiber versions. The coupe also has a clear glass cover to display the engine.

The Stingray convertible features a production retractable hardtop that automatically folds neatly over the engine compartment in 16 seconds and can be operated at speeds up to 30 mph.

The convertible hardtop retains the coupe's aerodynamic form and produces a similar drag coefficient with the top up. In the lowered position, the top does not intrude on trunk space. Track enthusiasts will be pleased to know that the newest convertible with the top up meets the same standards as the coupe.

40/60 FRONT-TO-REAR  
WEIGHT DISTRIBUTION

—

**A 40/60 WEIGHT  
DISTRIBUTION,  
FOR PERFORMANCE  
PERFECTION.**

For most of automotive history, engineers have sought a 50/50 weight distribution, especially for front-engine cars with rear-driving wheels. But Zora Arkus-Duntov declared a 40/60 front-to-rear weight ratio as ideal when he was developing the first Chevrolet mid-engine concept car — CERVI (Chevrolet Experimental Research Vehicle).

The newest generation of Stingray uses the same 40/60 front-to-rear weight ratio. Equally important, however, is the extraordinary rigidity of the structure itself, thanks to its architecture and materials. The Stingray structure is 30% to 50% stiffer than some well-respected competitors.

The secret is a closed center tunnel backbone conjoined by twin rails top and bottom. Many of the aluminum pieces are made with high-pressure die castings for extraordinary density. Others are made out of cast, forged or extruded aluminum. There is even a carbon-fiber rear bumper beam.

This rigid structure not only allows Stingray to change direction in heroic ways, but also quickens acceleration times.

SUSPENSION

3LT COUPE WITH Z51 PERFORMANCE PACKAGE AND OPTIONS | TORCH RED

—

## COILED AND READY TO DEVOUR ANY CORNER.

Quick reflexes were mandatory. The eighth-generation Corvette features a modified SLA (short/long arm) suspension geometry as well as coil springs on all four corners of the car. This configuration keeps spring rates and damping low for comfort while enabling track high-g cornering capability.

New for 2021, Magnetic Selective Ride Control™ is now available without having to order the Z51 Performance Package. The system integrates with the Driver Mode Selector to adjust ride stiffness in real time using magnetized ferrous particles in the shock fluid.

Standard on Stingray is an all-season tire that offers summer tire performance. The Michelin® Pilot® Sport all-season tire has the ability to achieve .94 g of lateral acceleration on a skid pad. For even greater capability, order the available Z51 Performance Package that includes Michelin Pilot Sport 4S summer-only tires<sup>1</sup> for even higher lateral grip on dry racetracks.

<sup>1</sup> Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, go to [my.chevrolet.com/learnAbout/chevrolettires](https://my.chevrolet.com/learnAbout/chevrolettires) or see your dealer.

ENGINE

—

## HEART AND SOUL.

Powering Stingray is a 6.2L LT2 aluminum small block V8 engine. Now in fifth-generation form, it is more compact yet more powerful: 490 standard horsepower and 465 lb.-ft. of torque. Much of the LT2's additional power can be attributed to excellent breathing. The intake system is a low-restriction design and incorporates identical 210 mm runners and an 87 mm throttle body. The performance header exhaust manifolds are also low-restriction and feature a stylized four-into-one design. The available Z51 Performance Package adds 5 more horsepower and 5 more lb.-ft. of torque, good for 0 to 60 mph in 2.9 seconds! You can also get that additional horsepower and torque from the available performance exhaust.

A standard dry-sump oil system is integrated into the block and allows the engine to be positioned for a lower center of gravity. Three scavenging pumps capture circulating oil to ensure pressurized distribution even in the highest-g situations on the track.

<sup>1</sup>Based on initial vehicle movement.

PERFORMANCE

—

**IT'S ALL ABOUT THE  
SEAMLESS ADMINISTRATION  
OF POWER.**

The 2021 Corvette is equipped with advanced powertrain technologies that let you get the most out of almost any driving situation. One of those is the standard Driver Mode Selector. It allows the driver to select preferences when it comes to shift points, steering effort, engine sound<sup>1</sup> and braking feel. Bad weather or freezing conditions can also affect choices. Six driving modes are available, including four standard presets —

Tour, Weather, Sport and Track — plus two flexible modes. These include My Mode, which allows you to create your own combination of presets for everyday use, and Z Mode, which lets you choose from a larger menu of high-performance settings for the engine, transmission and steering, especially for a particular road or track — all by pressing the silver Z button on the steering wheel.

3LT COUPE WITH Z51 PERFORMANCE PACKAGE AND OPTIONS | RAPID BLUE (EXTRA COST)

<sup>1</sup> Requires available performance exhaust or available Z51 Performance Package.

The control of a manual. The smoothness of an automatic. And it shifts faster than any human can, helping create the fastest-accelerating production Stingray ever. The 8-speed dual-clutch transmission is effectively two manual gearboxes that have clutches actuated by computers on a concentric shaft so there is no torque loss.

There's a shaft for even gears 2-4-6-8-R and another for odd gears 1-3-5-7. The shifting schedule aligns to your chosen Driver Mode Selector position. As you shift via the paddles, you can simultaneously engage one shaft while you're disengaging another, giving you the ultimate feeling of control.

Z MODE STEERING WHEEL BUTTON

PERFORMANCE

# Z51 PERFORMANCE PACKAGE.

## THE PINNACLE OF PERFORMANCE.

The architecture, structure, suspension, calibrations and software of Stingray are all ready to deliver a driving experience beyond your imagination. But to reach the pinnacle, check the box for the available Z51 Performance Package. It provides a group of performance enhancements, including:

- Performance brakes with larger brake rotors and performance brake pads
- Performance suspension (FE3)
- Performance exhaust
- Performance final drive ratio
- Electronic Limited-Slip Differential
- Rear spoiler and front splitter
- Michelin® Pilot® Sport 4S summer-only tires<sup>1</sup>
- Heavy-duty cooling system

Z51 Performance Package cars can also be ordered with a Magnetic Selective Ride Control system that includes Performance Traction Management.

3LT COUPE WITH Z51 PERFORMANCE PACKAGE AND OPTIONS | RAPID BLUE (EXTRA COST)

<sup>1</sup> Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, go to [my.chevrolet.com/learnAbout/chevrolettires](http://my.chevrolet.com/learnAbout/chevrolettires) or see your dealer.

TECHNOLOGY

3LT INTERIOR WITH OPTIONS | NATURAL-DIPPED

## CHOOSE THE INFORMATION THAT SUITS YOUR SITUATION.

Corvette engineers recognize that you have different information needs in different driving situations. A 12-inch diagonal customizable gauge cluster dominates the controls with graphics that change completely depending on your selected driving mode. You can view the wide cluster display neatly framed by the racing-style steering wheel. The display itself has two panels on the left side of the tachometer and four panels with track display that you can populate with specific information or gauges using the Options menu. An 8-inch diagonal color touch-screen is conveniently positioned just to the right of the central cluster.

A button and pull toggle gear selector helps simplify the console area. The Driver Mode Selector features a leather-accented palm rest, while climate controls are located atop the buttress separating driver and passenger.

TECHNOLOGY

8-INCH DIAGONAL COLOR TOUCH-SCREEN

AVAILABLE BOSE PERFORMANCE SERIES 14-SPEAKER SYSTEM

## TECHNOLOGY

### UNTETHERED.

High performance takes on many dimensions in the Stingray. Among them is an available 14-speaker Bose Performance Series, the most powerful sound system ever in a Stingray. Plus, an available 4G LTE Wi-Fi® Hotspot<sup>1</sup> allows you to stay connected, as does standard wireless Apple CarPlay®<sup>2</sup> and wireless Android Auto™<sup>3</sup> compatibility.

Help yourself become a better driver with the available Performance Data Recorder. When activated, it logs video of your drive onto an SD memory card. Three modes allow you to capture video, audio, driving stats, date and time, and much more. A fourth, Valet Mode, can record the activity of your car when you're not around. On the Corvette website, you can also download software developed by the same engineering firm that supplies Corvette Racing. It acts like a virtual driving coach, giving you vital metrics and comparisons.

An available Head-Up Display (HUD) system offers three distinct views for Tour, Sport and Track modes. Tour mode includes speed limit and turn-by-turn navigation prompts. Sport mode includes digital speed, tachometer and a g-force indicator. Track mode includes digital speed, tachometer, shift lights, best lap time, current lap time and gain/loss.

AVAILABLE WIRELESS CHARGING<sup>4</sup>

AVAILABLE PERFORMANCE DATA RECORDER

<sup>1</sup> Service varies with conditions and location. Requires active service and paid AT&T data plan. Visit [onstar.com](http://onstar.com) for details and limitations. <sup>2</sup> Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible iPhone and data plan rates apply. <sup>3</sup> Vehicle user interface is a product of Google and its terms and privacy statements apply. Requires the Android Auto app on Google Play and a compatible Android smartphone. Data plan rates apply. You can check which smartphones are compatible at [g.co/androidauto/requirements](http://g.co/androidauto/requirements). <sup>4</sup> The system wirelessly charges one compatible mobile device. Some phones have built-in wireless charging technology and others require a special adaptor/back cover. To check for phone or other device compatibility, see [my.chevrolet.com/learn](http://my.chevrolet.com/learn) or consult your carrier.

## SEATING

COMPETITION SPORT | EXTRA  
SUPPORT FOR TRACK DRIVING

GT1 | OPTIMIZED FOR  
COMFORT AND SUPPORT

GT2 | NAPA LEATHER AND  
CARBON-FIBER INSERTS

## THREE WAYS TO BECOME ONE WITH YOUR CORVETTE.

Becoming one with a car means you're properly situated behind the controls. Corvette offers three different seats for different driver preferences, all in a multitude of color combinations and contrasting color seat belts – and all with available thick contrasting stitching.

The GT1 seat in Mulan leather provides an intelligent balance between excellent support for enthusiastic driving and easy entry/egress for regular driving use.

The available GT2 seat in Napa leather blends the comfort of the GT1 seat with the appearance and carbon-fiber trim of the Competition Sport seat. Sueded microfiber or two-tone leather inserts are available.

The available Competition Sport seat provides aggressive bolsters for track driving, with a performance textile in high-wear areas.

3LT COUPE WITH Z51 PERFORMANCE PACKAGE AND OPTIONS | TORCH RED

## CARGO SPACE

FRONT TRUNK

REAR TRUNK

Stingray is equipped with two trunks, one in the front and one in the rear behind the engine, for luggage, coolers, groceries and more. Both coupe and convertible offer the same 12.6 cubic feet of cargo area<sup>1</sup>. The front trunk will accommodate a standard carry-on roller bag as well as a medium backpack. The rear trunk will carry up to two sets of golf clubs or the removable roof panel (coupe). This kind of versatility makes Stingray a real-world grand touring machine.

<sup>1</sup> Cargo and load capacity limited by weight and distribution.

## STANDARD FEATURES

### 1LT COUPE AND CONVERTIBLE

Include these features:

<b>MECHANICAL</b>
Active handling stability control
Brakes – 4-wheel disc with ABS and Black-painted Brembo® 4-piston calipers
Differential – mechanical limited-slip
Driver Mode Selector – six modes: Tour, Sport, Track, Weather, and My Mode and Z Mode customizable modes
Engine – 6.2L LT2 high-output V8 with Direct Injection, Variable Valve Timing, Active Fuel Management™ dry-sump oil lubrication system and Oil-Life Monitoring System
Exhaust – aluminized stainless steel with stainless steel tips
Frame – aluminum structure
Steering – speed-sensitive magnetic power steering with variable ratio
Suspension – 4-wheel independent
Transmission – 8-speed dual-clutch with manual and automatic modes
<b>EXTERIOR</b>
Accents – Carbon Flash Metallic-painted side vents and front/rear grille accents; tonneau grille on Convertible
Antenna – integral front and rear
Badges – Carbon Flash Metallic-painted
Convertible top – retractable, power-folding hardtop painted body-color; remote power-down; glass rear window, power with integral defogger
Daytime running lamps – LED
Glass – Solar-Ray® light-tinted
Headlamps – LED projector-style
Mirrors – heated, power-adjustable, manual-folding with turn signal indicators
Rear Park Assist <sup>1</sup>
Roof panel – body-color, removable (coupe)
Tires – 245/35ZR19 front and 305/30ZR20 rear, blackwall, performance, Michelin® Pilot® Sport all-season
Wheels – 19" x 8.5" front and 20" x 11" rear 5-open-spoke Bright Silver-painted aluminum
Wipers – front, intermittent
<b>INTERIOR</b>
Air conditioning – dual-zone automatic climate control with individual climate settings for driver and passenger; air filtration system with pollen filter; outside temperature display
Audio – Bose Premium 10-speaker system
Camera display – HD Rear Vision Camera <sup>1</sup>
Connectivity – NFC Bluetooth® device pairing for easy “one-touch pairing” of Bluetooth device <sup>2</sup>
Cruise control – electronic with Set and Resume Speed
Defogger – rear-window, electric
Door locks – power programmable with lockout protection
Entertainment – Chevrolet Infotainment 3 Plus system <sup>3</sup> with 8-inch diagonal HD color touch-screen, AM/FM stereo, HD Radio,® Bluetooth audio streaming <sup>2</sup> for two active devices, wireless Apple CarPlay® <sup>4</sup> and wireless Android Auto™ <sup>5</sup> compatibility, available Alexa Built-In <sup>6</sup> ; voice recognition and available In-Vehicle Apps <sup>7</sup>
Floor console – two covered cup holders, two auxiliary power outlets, two USB ports <sup>8</sup> ; auxiliary input jack and lockable storage
Floor mats – carpeted
Gauge cluster – 12-inch diagonal color driver information display with multiple selectable modes and gauge configurations
Hatch (coupe) or trunk (convertible) release – push-button open, hidden, power pull-down
Keyless Open and Start – two remote transmitters
Lighting – theater dimming
Rear Camera Mirror <sup>1</sup> – rearview auto-dimming with full camera display (convertible)
Remote vehicle starter system
Seat belts – Black
Seats – GT1 buckets with 8-way power adjusters
Steering column – power tilt and telescopic
Steering wheel – leather-wrapped, with mounted audio, voice, cruise, phone and gauge cluster controls
Theft-deterrent system – engine immobilizer and audible/visual alarm
Vehicle health management – provides advanced warning of vehicle issues
Visors – covered illuminated vanity mirrors
Windows – power with driver and passenger express-up/-down

### 2LT COUPE AND CONVERTIBLE

In addition to or replacing 1LT features, 2LT includes:

<b>EXTERIOR</b>
Mirrors – heated, power-adjustable, power-folding, driver-side auto-dimming with turn signal indicators
Rear Cross Traffic Alert <sup>1</sup>
Side Blind Zone Alert <sup>1</sup>
<b>INTERIOR</b>
Audio – Bose Performance Series 14-speaker system
Camera display – HD front cameras <sup>1</sup> (curb view)
Cargo nets – two
Entertainment – Chevrolet Infotainment 3 Premium system <sup>3</sup> with Navigation, 8-inch diagonal HD color touch-screen, AM/FM stereo, HD Radio, Bluetooth audio streaming <sup>2</sup> for two active devices, wireless Apple CarPlay® <sup>4</sup> and wireless Android Auto™ <sup>5</sup> compatibility, available Alexa Built-In <sup>6</sup> ; available In-Vehicle Apps <sup>7</sup> and available Connected Navigation <sup>9</sup>
Head-Up Display (HUD) – color, with readouts for Tour, Sport and Track modes, vehicle speed, gear, engine rpm, shift lights, turn signals, high beam headlamps, turn-by-turn navigation, g-meter, speed limit and lap times
Memory Driver and Passenger Convenience Package – memory settings for steering wheel, outside mirrors, and driver and passenger seats; activated by key fob or door button
Performance Data Recorder
Rear Camera Mirror <sup>1</sup> – rearview auto-dimming with full camera display (coupe)
Seats – heated and ventilated; power bolster and power lumbar
Steering wheel – heated
Theft-deterrent system – electrical, unauthorized entry, vehicle inclination sensor, vehicle interior movement sensor; activates horn
Universal Home Remote – includes garage door opener, 3-channel programmable, located on driver visor
Wireless charging <sup>10</sup>

### 3LT COUPE AND CONVERTIBLE

In addition to or replacing 2LT features, 3LT includes:

<b>INTERIOR</b>
Custom Leather-Wrapped Interior Package – leather-wrapped upper instrument panel, door trim panels and console
Seats – GT2 bucket seats with 8-way power adjusters, power bolster and power lumbar
Sueded Microfiber-Wrapped Interior Package – headliner, visor, trim above windshield and rear window, and A-pillar trim in color-keyed sueded microfiber

## THE REWARDS OF A HIGHER EDUCATION.

### RON FELLOWS PERFORMANCE DRIVING SCHOOL.

—

The premier driving academy of Corvette is located at Spring Mountain Motor Resort and Country Club in Pahrump, Nevada. Ron Fellows, a charter member of Corvette Racing — and a multi-time driving champion and class winner in every major long-distance sports car race — established the curriculum here in October 2008. The school, available to 2021 Stingray owners<sup>1</sup>, will help you benefit from Fellows' precision-detailed regimen designed to help you fully enjoy and appreciate the capabilities of your Stingray. Additionally, Chevrolet will subsidize a substantial portion of the tuition for new owners who attend in the first year. Learn more at [corvetteownersschool.com](http://corvetteownersschool.com).

### THE CONSUMMATE DELIVERY EXPERIENCE.

—

Take delivery of your Stingray in thoroughbred country, right from the floor of the National Corvette Museum in Bowling Green, Kentucky. Just specify Corvette Museum Delivery when ordering your Corvette. You'll also receive a one-year individual membership to the Museum and a Personalized Interior Plaque with your name and VIN.

### PERSONALIZED INTERIOR PLAQUE.

—

Your Stingray likely means a lot to you. Make it even more special with an available Personalized Interior Plaque that features your name and VIN.

<sup>1</sup> Only first retail purchasers of new and unused Corvette models are eligible. Does not include travel costs.

---

3-year/36,000-mile<sup>2</sup> Bumper-to-Bumper Limited Warranty.

---

6 years/100,000 miles<sup>2</sup> of Rust-Through Protection.

---

5-year/60,000-mile<sup>2</sup> Powertrain Limited Warranty.

---

5 years/60,000 miles<sup>2</sup> of Roadside Assistance<sup>3</sup> and Courtesy Transportation.

---

## IMPORTANT INFORMATION

**Chevrolet Owner Center (my.chevrolet.com).** Everything you need to know. Anything you need to do. Your Chevrolet Owner Center makes it easy. Create your account today to get the most out of your new vehicle. Get special alerts and offers, schedule service, review your maintenance schedule, and view how-to videos specifically for your vehicle. All online, anytime. Visit the Owner Center today to register or take a tour.

**Engines.** Chevrolet products are equipped with engines produced by GM Global Propulsion Systems or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

**Assembly.** Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

**Chevrolet Connected Services and OnStar.** Connected vehicle services vary by vehicle model and require an active service plan, working electrical system, cell reception and GPS signal. OnStar links to emergency services. Visit [onstar.com](https://onstar.com) for details and limitations.

**A note on child safety.** Always use seat belts and the correct child restraint for your child's age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See your vehicle Owner's Manual and the child safety seat instructions for more safety information.

**Important words about this catalog.** We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based on design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. Chevrolet reserves the right to lengthen or shorten the model year for any product for any reason or to start

and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on GM Luxury Sports Car segment and latest available competitive information. Excludes other GM vehicles.

**Tires.** Corvette is equipped with run-flat Michelin® Pilot® tires that eliminate the need for a spare. The tire design enables safe function during and after loss of pressure for some distance at a moderate speed. The shorter the distance that you drive with loss of pressure, the better the chance that the tire can be repaired. As soon as possible, contact Roadside Assistance for the nearest authorized GM or run-flat tire servicing facility and have the tire inspected. See your Owner's Manual. Corvette has low-profile tires that tend to wear faster and are more susceptible to damage from road hazards or curb impact than standard profile tires. This type of damage is not covered by the GM New Vehicle Limited Warranty.

**Fleet orders.** Some standard content may be deleted on fleet orders. See dealer for details.

**Chevrolet ownership experience.** Chevrolet is committed to enhancing the vehicle shopping and ownership experience through a wide array of programs. Visit [chevrolet.com](https://chevrolet.com) to build and price, find a vehicle, request a quote, compare vehicles, find financial tools or track your vehicle order. You'll also find information about 24-hour Roadside Assistance, Courtesy Transportation, Customer Assistance, GM Mobility, safety and current incentives.

**Chevrolet.com/safety.** Chevrolet is committed to helping keep you and your family safe – from the start of your journey to your destination. That's why Chevrolet vehicles offer standard and available safety and security features to help give you peace of mind.

**GMmobility.com (1-800-323-9935).** GM Mobility™ offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit [gmmobility.com](https://gmmobility.com).

**The BuyPower Card.** The Chevrolet BuyPower Card – Every purchase you make with the BuyPower Card from Capital One\* helps you earn toward an eligible new Chevrolet, Buick, GMC or Cadillac vehicle. There's no limit on the amount you can earn or redeem, and your Earnings don't expire. Visit [chevroletbuypowercard.com/catalogs](https://chevroletbuypowercard.com/catalogs).

\* Capital One, N.A. is the issuer of the BuyPower Card. General Motors ("GM") is responsible for the operation and administration of the Earnings program.

<sup>1</sup> Maintenance visit must occur within first year of vehicle delivery. Service visit consists of Mobil 1™ Oil and Filter Change and MPVI. Does not include air filters. See participating dealer for other restrictions and complete details.

<sup>2</sup> Whichever comes first. See dealer for details. <sup>3</sup> Roadside service provided by Allstate Roadside Services. Limitations apply.

RACING

---

## A CHAMPIONSHIP

## ITS FIRST YEAR OUT.

In the inaugural year of the all-new C8.R, Corvette Racing achieved a dream season, competing against the best Europe has to offer and clinching the 2020 GTLM Manufacturers, Drivers and Team titles for Chevrolet in the IMSA WeatherTech SportsCar Championship. Led by the yellow and silver No. 3 C8.R and the silver and yellow No. 4 C8.R, the team added to an already

impressive list of championships – 113 race victories and eight Le Mans wins since 1999, the most of any competitor. It's all for a very good reason – to make sure that Corvette remains one of the best sports cars in the world, via the technical transfer that comes from racing. Corvette fans can continue to applaud the results.
